## ENGINEERING STATEMENT

The engineering data contained herein have been prepared on behalf of TERRY C. JENKS in support of his Application for Construction Permit for a new FM Broadcast Station to operate on Channel 288A in Bowdon, Georgia.

The proposed site, shown in Exhibit B, meets all pertinent spacing requirements. It is not within 60 meters of an authorized or proposed FM or television facility, nor is it within 3.2 kilometers of an AM facility.

A vertical sketch of the proposed antenna and supporting structure is included as Exhibit C. Exhibit D is a tabulation of proposed operating parameters, and Exhibit E provides elevation and contour data. The predicted service contours are plotted in Exhibit F. Since construction of a new tower is proposed, the FAA has been notified of this application. A copy of FAA Form 7460-1 is included herein as Exhibit G.

Under traditional standards a grant of this application would constitute a minor environmental action. However, since the Commission now considers the possible biological effects of RF transmissions in this regard, we have studied the matter. Employing the methods set forth in *OST Bulletin No. 65* and assuming a typical pattern for a three-bay antenna, we calculate the maximum ground-level power density from the proposed facility to be  $0.0069 \text{ mw/cm}^2$  at locations about 58 meters from the tower base. Since this is less than one percent of the  $1.0 \text{ mw/cm}^2$  reference for this frequency, a grant of this proposal would clearly qualify as a minor environmental action, regardless of the RF contributions from other sources at

EXHIBIT A

this site.

In the event that personnel must work on the tower, the applicant will reduce power or cease operation as necessary in order to avoid the exposure of those workers to excessive levels of RF energy.

I declare under penalty of perjury that the foregoing statements and the attached Engineering Report, which was prepared by me or under my immediate supervision, are true and correct to the best of my knowledge and belief.
